This Action is responsive to the communication filed December 19, 2001.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The recitation in claims 1 and 5 of "more particularly" is indefinite. In claims 12 and 13 the use of (22 and 23) appears to refer to two different things.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-4 and 7-16 are rejected under 35 U.S.C. 102(b) as being anticipated by the Patent Abstracts of Japan publication number 58142084, of record.

The tapered connecting surfaces of the bodies of '084 are read as pins, members 11, 11 correspond to the coupling bodies. As to claim 12, the tapered surfaces can be fairly read as of "conical form" in that a cone does not have to be a right circular cone and a conic section has a conical form.

Claims 1 and 17-20 are rejected under 35 U.S.C. 102(b) as being anticipated by Wolfe, Sr., of record.

The mounting slides 25 of Wolfe, Sr. are read as pins and the mounting block 24 includes an integral flow path 32 and seals 29.

Claims 5-6 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
